Dear Sir:

10 In response to the Office Action dated March 3, 2004 ("OA"), Applicant
responds as follows in order to prevent the application from becoming
abandoned.

The OA was rendered in connection with the above-referenced
application. It is obvious from the OA that the examination was based on the
15 translation of the PCT application that was provided with the filing papers for
entering into the National Examination Phase in the United States. As evidenced
by the Notice of Acceptance of Application, however, the Patent and Trademark
Office, in addition to other items, confirmed receipt of a Preliminary Amendment
and a Substitute Specification. The Preliminary Amendment cancelled original
20 claims 1-18 and presented claims 19-45 for examination, in addition to making
other editorial changes in the application.

Since this Preliminary Amendment was properly filed, and receipt thereof was confirmed by the Patent and Trademark Office, examination of the translated claims from the original PCT application in the Office Action dated March 3, 2004 was improper. Withdrawal of that Office Action, and a first Office Action on the merits with regard to
5 claims 19-45, was requested in a response mailed on April 8, 2004.

Applicant has received no indication that this request was acted on, and calls to the Examiner and his supervisor have not been successful in getting a written response. Since this application will become abandoned if a response to the OA is not filed, Applicant is resubmitting the originally submitted Preliminary Amendment A as follows.
10 Applicant petitions for a three-month extension to extend the period of response from June 3, 2004 to September 3, 2004, and respectfully requests that:

- 1) the next office action not be made final; and
- 2) no extension fees be charged for this response, since no action was taken by the USPTO regarding the timely submitted Request to Withdraw. Nonetheless, the
15 Commissioner is authorized to charge any extension fees believed due to Deposit Account. No. 501519.

The originally submitted amendment follows.

Amendments to the Specification are reflected in the amendments beginning on page 4 of this paper. Furthermore, the specification has been amended as set forth in
20 the substitute specification submitted herewith pursuant to 37 C.F.R. §1.125(b). A marked-up copy showing all changes is also submitted herewith. No new matter is added in the substitute specification.

Amendments to the Drawings are reflected in the drawing changes to Figures 1 and 2 attached as Appendix A to this response. Marked up versions of these figures showing the changes are included.

Amendments to the Claims are reflected in the listing of claims which
5 begins on page 5 of this paper.

Remarks/Arguments begin on page 13 of this paper.
